

Langstane Housing Association

Key Information

Our Background

For more than 45 years, Langstane Housing Association has provided high-quality homes and services across the North East of Scotland. We are a medium-sized housing association with a strong social purpose and a long-standing commitment to supporting the communities we serve.

The Association is governed by a voluntary Board of Management, elected from our membership at the Annual General Meeting. Working together with our leadership team and employees, the Board sets the strategic direction for the organisation and ensures strong governance and accountability.

We are ambitious about the future of Langstane and are committed to continually improving our performance so that we can deliver the best possible outcomes for our tenants and communities.

Langstane Housing Association is:

- Registered under the Co-operative and Community Benefit Societies Act 2014
- A registered Scottish Charity
- A registered property factor

As a non-profit distributing organisation, any financial surplus we generate is reinvested directly into our homes, services and communities.

Governance

The Board of Management (the operational title for the Committee of Management) provides strategic leadership and oversight of the organisation.

The Association is the parent company of three wholly owned currently dormant subsidiaries:

- Langstane Property Limited
- Langstane Maintenance Limited
- Langstane Development Limited

The Board consists of between seven and fifteen members, including co-opted members.

Members bring a broad range of professional expertise and experience, including housing, governance, finance and human resources, alongside a strong commitment to social housing and the local communities we serve.

Board members' names are published widely, including on the Association's website and in our annual reports: <https://www.langstane-ha.co.uk/board-of-management>

Our tenants and our customers

This tenant satisfaction survey was conducted by Knowledge Partnership on behalf of Langstane Housing Association using an interviewer-led telephone questionnaire. Fieldwork took place between 4 October 2024 and 8 November 2024. By the end of the survey period, 351 tenants had participated, representing 23.4% of the total tenant base.

Overall, 81.5% of tenants reported being satisfied with Langstane Housing’s services in 2024, compared to 10.0% who reported dissatisfaction. This reflects an improvement on the 2021 satisfaction level of 78.6%.

The findings also show strong performance across key service areas, with around eight in ten tenants expressing satisfaction with aspects such as the quality of their home, the information provided, and opportunities to participate in shaping services.
