

Bill Payments.

Text Payments

Text Payments from allpay is a secure text message bill payment option, giving your customers even more flexibility in the way they pay you.

How will Text Payments benefit your organisation?

Text Payments will provide customers with the flexibility to ensure they are increasingly familiar with this form of communication. More than half (58%) of UK adults use text messages at least once a day* and 94% of the UK population own a mobile phone**.

Why do customers want to text their payments?

To text a bill payment is for many customers, the height of convenience.

With allpay this method of communication is now a very real bill payment option for your customers.

How it works...

To begin using Text Payments your customers simply need a UK-registered mobile phone, a valid allpay swipecard and a current debit or credit card (debit card only if preferred).

After a very brief registration online at: www.allpayments.net/textpay, your customers can pay their bills anytime, anyplace, anywhere.

They text a simple code and the amount they wish to pay to a designated number every time they want to make a payment.

This service works in complete harmony with all other payment methods from allpay and is available 24 hours a day, 7 days a week.

“ allpay provides us with various payment methods, which we can offer to our wide range of clients. This is vital because the more methods we can offer, the more income we are likely to receive. ”

Campbell McCulloch, Income Management Coordinator, **Plus Dane Group**
