

Gas Safety Week 25!

8th – 14th September 2025

Gas Safety is all our responsibility!

Unsafe gas appliances can put you and others at risk of:

- Gas Leaks
- Fires
- Explosions
- Carbon Monoxide Poisoning

Keep you, your family, friends and those around you gas safe!

Make sure you get your gas appliances checked and serviced every year by a qualified Gas Safe registered engineer.

Always check their Gas Safe License card to make sure they are qualified to carry out the work they have been asked to do!
